Dear President Allison:

Thank you for your recent inquiry regarding the willingness of New Mexico public postsecondary institutions to accept for transfer courses offered by SIPI during the period that the institution will be in candidacy status with the Higher Learning Commission. We understand that this process is likely to take up to two years. I am pleased to report that the member institutions of New Mexico Independent Community Colleges (NMICC) will continue to accept for transfer those courses that have been submitted through the Higher Education Department's course transfer and articulation processes, as well as any institution-to-institution transfer agreements that are currently in place.

We look forward to working cooperatively with you and your staff to assure that SIPI students are able to achieve their education goals during the re-accreditation process. We are confident that your institution will be successful in those efforts.

With our sincere best wishes,

Danny K. Esro, Director
New Mexico Independent Community Colleges
