

From Your Ridgecrest Counselors

On Monday, April 7, we will learn who wins the NCAA National Title in College Basketball. While history is being made at the collegiate level, we are planning for an exciting week of college activities at Ridgecrest. College Week will take place April 28 – May 2. The intended purpose of College Week is to inspire school spirit and inform students of interesting details and fun facts about various colleges and universities.

Throughout the week, a plethora of activities will be held during lunch time. We will be playing school fight songs, displaying faculty and staff alma maters, and school mascots will make an appearance as well as different activities, games, and more. Students and staff alike are encouraged to participate in a College Gear Day by sporting a college or university of their choice. Prizes will be given to students who participate in these activities.

The inspiration behind College Week stems from wanting to bring about lighthearted awareness to students at the intermediate level. With a strong emphasis on academics in middle and high school it was important to inspire the college-going culture in a way that is sensitive the needs of this age group.

We are excited for a fun-filled week of college festivities and look forward to sharing them with your student!
