

EMERGENCY EVACUATION INFORMATION**Painesville City School District**

Dear Parent:

The Painesville City School District, in coordination with the Lake County Emergency Management Agency, has developed plans to protect students should an emergency at the Perry Nuclear Power Plant require protective response by our District.

If a Site Area Emergency is declared, children will be relocated to the assigned receiving schools unless it is determined there is no possibility of a radiological release, based upon the emergency.

If a General Emergency is declared and an evacuation has been recommended for the area which includes our school district and students have not already been relocated, students will be safely bused directly to schools in the Willoughby-Eastlake School District. Parents or legal guardians will be requested to pick up their children at the receiving school buildings. A list of receiving schools for each school within our district is included in the Emergency Preparedness Information Brochure and the telephone directory.

School staff will accompany students to receiving schools and school staff will remain with students until all students are picked up. It is not necessary to rush. Drive safely to the receiving school and your child will be waiting for you under the supervision of school staff.

Children will be released to parents or legal guardians through normal district release procedures. If your son or daughter drives to school or rides with another student, it is your responsibility to establish a meeting place should relocation or an evacuation take place.

If you have not picked up your son or daughter at the receiving school within a reasonable time as determined by the Superintendent, he/she will be moved to South High School, 5000 Shankland Road, Willoughby, and provided with food, shelter and supervision.

In order to ensure the safety of the District's school children, we request your cooperation.

Sincerely,

John T. Shepard
Superintendent
