PUBLIC NOTICE REPORTING VIOLATION NOTICE

The LAZBUDDIE ISD water system PWS ID 1850023 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination.

These violations occurred in the monitoring periods: Quarter 3 of 2014. While the disinfection residuals in the drinking water distributed within the LAZBUDDIE ISD water system were monitored in accordance with requirements as set forth by TCEQ during this quarter, the aforementioned violation was incurred because of a failure to report the results of the monitoring to TCEQ.

To address this issue, LAZBUDDIE ISD has submitted monitoring reports for this quarter to TCEQ via certified mail, and public notice of this violation is hereby given to all users of the LAZBUDDIE ISD water system.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing the copies by hand or mail.

If you have any questions regarding this matter, you may contact Joanna Martinez, Superintendent, at (806) 965-2156.
