Curriculum-Based & Internal User Group Fees

Curriculum-Based Facility Users

The Placentia-Yorba Linda Unified School District (PYLUSD) has numerous facilities beyond our classrooms that we are excited and proud to provide to benefit our students. These facilities are made available beyond the instructional day for the enrichment and practical application of classroom instruction as well as for staff development events and administrative programs.

Our theater facilities will be made available to our district’s curriculum-based groups **at no cost**. The district is budgeting a certain amount, per program, to provide our theater facilities for activities that are appropriate to the space and that support classroom and administrative objectives.

The district will provide a designated number of hours for custodial services and a theater manager to oversee usage in our theater venues. Should a user require additional staffing, the user group will be responsible for any additional costs as outlined below. The use of qualified student volunteers as technicians, under the supervision of the theater manager on duty, is encouraged and can help reduce potential user group costs.

The district strives to make our facilities as accessible as possible to school district users while ensuring the care, maintenance, and security of our exceptional facilities for many years to come.
