

Technology Review Action Committee
Monday, December 12, 2016
Agenda

16-17 Meetings: December 12th @8:30; February 6th @8:30; May 15th @8:30

1. Future of Classroom Devices for LCHS 9-12: Three distinct pathways
 - a. Continue CYOD model (students bring a Chromebook)
 - b. Move to BYOD (students bring any device)
 - c. Pilot class tech donation (parents help put a Chromebook cart in every classroom)
 - i. Explore repair model to help parents with that challenge
 1. Pathway for repair
 2. Log into the library system
 - ii. Find alt. Insurance plan that could help
 - iii. Self-insurance model
 - iv. Offer support in filtering and management at home
2. Next set of projects
 - a. Launching new student online registration
 - b. LCHS online course selection
 - c. Creation of new tech position called Student Information System Specialist (updating the classic registrar position to include all technical demands of managing student records)
 - d. Planning summer wiring project for LCHS
 - i. Rewire A and B buildings and add APs to every classroom
 - ii. Upgrade access points districtwide (explore a new vendor like Cisco)
 - iii. Overhaul the fiber backbone to 10Gb
 - e. Online field trip form (tied to donation)
 - i. Medical questions on field form need updating (work with Chris Henry)
3. Brightbytes Technology Survey for students, parents, and staff
 - a. Delivered in January
 - b. Results shared at February meeting
4. Homework: Consider the new Chromebook and model.
