Comprehensive School Safety Plan

2018-2019

Pursuant to Education Code 32280 – 32289

School Mission Statement

Within the Park Hill Elementary School community we celebrate and embrace the whole child, in all parts of her or his life. We do this through: Becoming a consistent community; creating a safe, nurturing educational environment; affirming each child's uniqueness, abilities and worth, while maintaining high expectations; and, celebrating and encouraging each others gifts. We do this so that each child who passes through our doors reaches her or his full potential, and possess the abilities and knowledge needed to live a full and meaningful life.

School Safety Team Vision Statement

The vision of our safety plan is to best assess the current status of overall safety at our school site for its students, teachers, staff, families and community. We strive to build on and modify timely and appropriate strategies, programs and supports that will maintain and improve the safety for all and communicate it for full compliance and capacity.

**School Safety Assessment Data
2017-2018**

Data Source	Comments	Analysis
School Crime- Incidents Involving SJPD		
Suspensions	16 suspensions –most of our suspensions pertain to fighting and verbal altercations.	<p>We have had 16 suspensions on our campus thus far in the 2017-2018 school year. Our suspension and expulsion policies are determined by the district. We adhere to those policies. Every incident that occurs is closely investigated. Once we conclude the investigation, based on the information gathered and prior history/incidents, etc. we make a determination to see what consequence will be most effective. We work hard to provide an alternative to a suspension. What the suspension data shows is that of the 16 suspensions, 8 were African American (from 4 students), 5 Latino (from 4 students) and 4 White (from 2 students). 9 fighting/verbal altercation incidents and 3 for disruptive behavior. <u>We need more disposition options for our identified “Tier 3” students, more options to better give consequences/support in a punitive AND non-punitive manner.</u> We need to continue to work on creating more interventions that will reduce the fighting behavior on campus. This includes conflict resolution strategies, positive-proactive instruction and peer/adult relationship building with these students. We need to make sure that our interventions are preventive rather than reactive. As a safety team we need to sit down and look at the individuals that were suspended and see if there are any areas that we can</p>

		provide more supports.
Expulsions	We have had none	We had 0 expulsions this school year. Suspension and expulsion policies are determined by the district. We adhere to those policies.
Office Discipline Referrals	Classroom Referral Office Referral	We have had 129 total student discipline entries for the 2017-2018 school year: 23 disrespect expectations/rules, 23 prefight, 17 Disrespect staff, 16 fighting/verbal altercation, 24 disrespect peer, 12 disruptive behavior, 10 inappropriate language. In identifying our Tier 2 behavior students through the data, they are struggling academically, have broken households, have experienced trauma in the home. As a team we need to better identify the specific attributes and home life of these students and create ways to support these students with better supports on an emotional level. We have worked hard, with the leadership of our counselor and the Safety/PBIS team, to foster a culture of truly knowing our students, creating stronger relationships and supporting the whole child- academically and behaviorally.
Reports of Bullying		We had 6 incidents of first offense bullying. Our counselor has worked on anti-bullying instruction throughout the school year, part of our Tier 1 Behavior Plan. We have had integrated and delegated instruction on a school-wide conflict resolution strategies and a “What Should I Do” strategy wheel and “Upstander” teacher/student instruction. Instruction focuses on defining what bullying is and letting students know whom they could turn for support.
Calif Healthy Kids Survey		Our school counselor uses the results of this survey to provide classes and support services for our students. Her lessons are aimed at providing students with tools/strategies to ensure that they can resolve conflicts, gather assistance, etc.

Parent Safety Surveys	2 a year	Parents complete a fall and spring parent survey. The parents felt our school was a safe place for students to learn. The survey showed that the parents are seeing a change in the overall positive culture at PHE. The survey shows they have been happy with the visibility from administration. The parent survey also showed that they are happy with the ongoing improvements to the facilities on campus, modernization to restrooms, buildings, lighting, carpet and painting.
Teacher Safety Surveys		
Focus Groups	Counselor	All students have access to the school counseling program through a Tiered approach. Tier 2 Groups are provided to students who are identified as needing additional support. These groups are formed using school site data in Aeries including site discipline data, report card student responsibility data, and attendance data. Tier 2 supports can also be provided to students who are identified through teacher or administrator referral. Not all students who are referred to counseling will receive group or individual counseling, but all referrals are reviewed for how to best support the student.

**Policies and Procedures
Reviewed & Revised 2017-2018**

Policy/Procedures	Reviewed w/Team Y/N	Comments	Revisions
Child Abuse	Y	All school staff monitors the safety and welfare of all our students. Staff understands their role as mandated reporters and immediately reports all cases known or suspected of child abuse. Child reporting procedures are provided in our district policies and our welcome back staff meetings. Staff members also have to complete a Keenan and associates online training	Continue to ensure that every effort is made to ensure the confidentiality of the student and reporter. Continue with the high degree of communication to ensure student safety.
Emergency Response (Hour Zero)	Y	Disaster and emergency procedures are practiced and documented throughout the year. Our site also participates in the district drills. Our emergency plan is located in the office in our "Safety Binder".	Continue to practice and document our emergency procedures. Safety Committee will continue to meet to review our staff responsibilities, assess our drill response, and make any changes that we feel will ensure we respond adequately.
Suspensions and Expulsions	Y	Our district follows the Ed Code and Board policies which outline the discipline policies pertaining to suspensions, expulsions, and student rights. We have also outlined these behavior expectations in our student handbook. Communication from school to home is facilitated by our referral form.	Continue to follow these policies and ensure that we maintain home/school communication.
Notification of Dangerous Pupils	Y	California Ed code requires that teacher be notified	Continue to comply with procedures and

		when one of their students has engaged in behaviors that have resulted in suspensions or expulsions. In order to comply with this; 1) we document all suspensions in AERIES, 2) file a copy of the suspension letter in the students' cum, 3) Each teacher has access to a computer and AERIES. AERIES will note next to the student name an asterisk noting that the student has been suspended.	policies.
Discrimination and Harassment	Y	The district has board policies in place noting the procedures for filing a discrimination/harassment claim. All employees take training through Keenan (online) that explain the policies.	Continue to support/follow these policies. Include these policies in our Safety binder.
School Dress Code	Y	In order to ensure that our students have the best learning environment, are safe and have the least distractions, we have included a dress code policy in our handbook. The policy that we have included is board adopted. Students not following the dress code will call home for new clothes or will be provided clothes from the office.	Continue to follow the board adopted policies.
Safe Ingress and Egress	Y	Our campus is closed campus. At 8:10 we provide playground and bus/student drop off supervision. At 8:00 am we provide crosswalk services at the corner of Commonwealth. From 3:15-3:35 we have supervision as	Continue to follow these procedures.

Safe and Orderly Environment	Y	<p>School rules can be found in the Parent/ Student Handbook. The rules are sent home at the beginning of the school year to be signed and discussed by both parents and students. They are also provided at the time of enrolment for students. Consequences range from warning to suspension depending on student history and severity of behavior. School rules address safety issues on the campus. District signs are posted to inform that tobacco, alcohol, and other prohibited products that are not permitted on the school grounds.</p>	Continue to follow these procedures.
Rules and Procedures on Discipline	Y	<p>School rules can be found in the Parent Handbook. The parent handbook is given at the beginning of the year and to every new student at the time of enrollment. The rules are sent home to be signed and discussed by both parent/guardian and student. Classroom rules are created by each teacher and or students.</p>	Continue to follow these procedures.

**End of Year Evaluation
School Safety Plan 2017-2018**

Priority Area	Met Y/N	Comments
<p><u>Priority One</u> Decrease Defiant behaviors on campus</p>	Y	<p>We have seen a positive trend in less discipline entries for defiant behaviors in the last three years. However, we continue to see a consistent pattern in amounts of “fighting” (prefight/hands and feet to self) and a higher number of “Disrespect Adult” . This will continue to be a priority during the 2017-2018 school year</p>
<p><u>Priority Two</u> Increase academic and behavior interventions</p>	Y	<p>The interventions that we increased have shown a decrease in referrals for defiant behaviors but we are beginning to see an increase in “disrespect to adult” and “Prefight”. The data shows that we need to be more analytical and purposeful with the interventions that we provide for our students.</p>
<p><u>Priority Three</u> Provide more campus incentives for students</p>	Y	<p>We held multiple incentives for our students regarding behavior. We have implemented incentives through our PBIS goals that ensure students are being recognized for modeling the desired behaviors. We have incorporated student leadership into helping with PBIS and reflection groups based off data.</p>
