

Principal BOE Report for 10.17.16

- **Tricia Mullins:** JH Special Education teacher
 - Olivet College graduate
 - Second year of teaching
 - Para-professional and substitute teacher for several years
 - Experience with diverse student population and age groups

- **RMTC/KCC Manufacturing Day Field Trip:** 23 students visited the Regional Manufacturing Technology Center last week. They toured several programs such as Industrial Technology, Electricity, Welding, and Heating & Cooling. They were able to try some of the technology as well.

- **Battle Creek Area Math & Science Center:** Center Director Luke Perry made a presentation to eighth grade students on October 10th. All students will receive an informational packet at their home address. Those wishing to apply must take a couple of assessments. We are hopeful that the Center can test our students in our building during the school day to increase the number of students applying.

- **Professional Development:** Cognitive Coaching, Next Generation Science Standards
