Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Glasscock County Independent School District as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise the Glasscock County Independent School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Glasscock County Independent School District as of August 31, 2017, and the respective changes in financial position and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 4-10 be presented to supplement the basic financial statements as well as the Schedule of the District's Proportionate Share of the Net Pension Liability and Schedule of District Contributions on pages 41 and 42 and the related notes to required supplementary information on page 43. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Glasscock County Independent School District's basic financial statements. The required TEA schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The required TEA schedules are the responsibility of management and are derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the required TEA schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2017 on our consideration of the Glasscock County Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Glasscock County Independent School District's internal control over financial reporting and compliance.

**GLASSCOCK COUNTY INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
UNAUDITED**

This section of Glasscock County Independent School District's annual financial report presents our discussion and analysis of the District's financial performance for the fiscal year ended August 31, 2017. Please read it in conjunction with the Independent Auditor's report on pages 2 and 3, and the District's basic financial statements.

FINANCIAL HIGHLIGHTS

The District's net position as presented on Exhibit A-1, increased from \$19,950,806 to \$22,249,422. The unrestricted portion of this net position is \$7,382,992 which may be used for ongoing operations. The District also has restricted funds for debt service of \$1,022,382 to provide for debt repayment. The total restricted for capital projects represents the unspent funds less the related debt and amounted to \$52,159. Net assets invested in capital assets net of related debt totaled \$13,791,889. Total assets have increased \$514,346 mainly due to the capital project amounts spent and total liabilities have decreased by \$1,919,149 due to repayment of debt. The deferred outflows of resources and deferred inflows of resources relate to the adjustment required to book the TRS pension liability. The net pension liability amounted to \$1,172,231 which is a decrease from \$1,248,515 in the prior year. Details related to this liability are explained further in the following footnotes.

As shown in Exhibit B-1, the District had expenses of \$26,907,569 compared to \$31,648,304 in the prior year. With the decrease in property tax revenues as a result of a large decrease in assessed values, the loss tax revenue generated also decreased the recapture amount paid to the Texas Education Agency. In the general fund, the recapture payments of \$19,461,242 in 2017 and \$24,033,256 in 2016 represented 81% and 84% of general fund taxes collected in that year, respectfully. After reducing the above expenses for outside grants and charges such as concessions, athletic events, and food sales, the District was left with \$26,267,938 of expenses which were funded by general revenues of \$28,566,554. Total revenues from all sources were \$29,206,185 compared to \$33,834,840 from the prior year. This represents a decrease of \$4,628,655 which is mainly the decrease in tax revenues collected. As noted above, the decrease in taxes is due to the decrease in assessed values from \$2,732,545,338 to \$2,323,784,391. These assessed values take into effect the tax abatements allowed for the Section 313 agreements. Total value abated per the Glasscock Appraisal District was \$464,590,366 in the current year. State revenue funding represented a minimum amount from the state plus a refund of amounts paid on 313 agreements. Miscellaneous revenue consisted mainly of amounts paid on 313 agreements. Total payments on these agreements amounted to \$1,624,294 in 2017 compared to \$1,169,579 in the prior year.

The fund financial statements as shown in Exhibits C-1 and C-3 show the financial information on a fund basis. The net increase in the general fund balance is \$776,551 related to current year operations. The unassigned fund balance is \$6,635,317 as of year-end and represents those funds available for future operations. Using the current year expenses less the recapture amount, the District has approximately 13 months of operations in the unassigned fund balance. As noted above the decrease in revenues is due to the large decrease in assessed values as the price of oil continued to decrease. Expenditures of the general fund decreased \$4,418,522. The largest decrease is in the amount due back to the TEA for the chapter 41 overpayment. Total salaries and benefits in the general fund totaled \$3,850,710 compared to \$3,652,876 in the prior year. The percentage of salaries and benefits to the total expenses before the pay back to the state and capital outlay is 65% compared to 64% in the prior year. It should be noted that the expenses in Community services was up \$60,000 to help fund a new day care program for the school. Exhibit C-5 shows an original budget deficit of \$219,849 which was amended to show a final budget deficit of \$314,285. The amendment was in anticipation of owing more on the payback to the state for Chapter 41 schools. As can be seen from comparison of actual amounts to the amended budget, actual revenues were \$141,075 more than anticipated while expenses were \$880,678 less than anticipated. The District attendance decreased from an average daily attendance of 291 to 284 in the current year. The largest decreases in expenses were in the instruction function and the contracted services between schools function. Payback to the state was less than anticipated.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts - management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

The government-wide financial statements include the statement of net position and the statement of activities. These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial report of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term, as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. The remaining statement of fiduciary net assets provides financial information about student activity funds. The District acts solely in a custodial manner in regard to these funds.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The required supplementary information includes information required by the governmental accounting standards as well as information required by the Texas Education Agency.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The statement of net position includes all the District's assets and liabilities at the end of the year while the statement of activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities or from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net assets and changes in them. The District's net position (the difference between assets plus deferred outflows less liabilities plus deferred inflows) provides one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider non financial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

**GLASSCOCK COUNTY INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
UNAUDITED**

In the statement of net position and the statement of activities, we present all the activities of the District as one governmental activity which is defined below.

Governmental activities—Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds, not the District as a whole. Laws and contracts require the District to establish some funds, such as grants passed through the Texas Education Agency. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The fund financial statements reflect the general fund, debt service fund, and the capital projects fund as major funds and all other funds combined in a column referred to as all other funds. All these funds are determined to be governmental funds as defined below.

Governmental funds—Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position of the District's governmental activities increased from \$19,950,806 to \$22,249,422. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – are \$7,382,992 at August 31, 2017. As shown below there is an overall increase in net position of \$2,298,616 which is explained in the financial highlights.

Table I - NET POSITION

	Governmental Activities 2017	Governmental Activities 2016	Increase (Decrease)

Total net position	<u>\$ 22,249,422</u>	<u>\$ 19,950,806</u>	<u>\$ 2,298,616</u>

Current and other assets have decreased as the District draws down the capital project fund cash and spends on those projects, while the assets increase as these amounts are added to the fixed assets. The decrease in liabilities is due to the repayment of debt as noted in the footnotes. The District has been very aware of being able to repay debt in advance of the maturity when the debt allows for this. The capital projects are continuing with the gymnasium, classrooms and the concession area still in progress as of year-end.

**GLASSCOCK COUNTY INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
UNAUDITED**

The District's total revenues decreased by \$4,628,655. The largest decrease was in the property tax revenue due to a large decrease in assessed values which was discussed earlier in this document. With the decrease in property tax revenues there is a corresponding decrease in the amount paid back to the state for being a Chapter 41 District. This payback is shown in the expenses under contracted instruct services between schools. Payments to Tax Increment Fund decreased due to the repayment being netted against tax revenues in 2017 as compared to paid in 2016.

THE DISTRICT'S FUNDS

As the District completed the year, its general fund reported an unassigned fund balance of \$6,635,317 and committed fund balances of \$925,207 which remained unchanged from the prior year.

As shown on Exhibit C-3, the District's net change in fund balance for all governmental funds was a decrease of \$4,400,511 due to the expenditures in the capital outlay fund in the current year. The breakdown between funds can be seen on this statement. As can be seen on Exhibit C-5, the District stayed within the budgeted amounts in total.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2017, the District had \$34,712,570 invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. Accumulated depreciation on these assets amounted to \$4,705,816. Capital additions in the current year were \$5,630,997 as the capital projects items continued to be added. A total of \$13,467,351 is still considered in progress and includes the gymnasium and other related projects. See Footnote III.D for additional information.

Debt

As shown in these financial statements, the District had total debt related to bonds of \$16,536,606. The District also has accrued a liability for compensated absences which is further explained in Footnote III.G and totaled \$21,600. The Series 2011 bonds were paid off in the current year and efforts are being made to payoff debt as quickly as possible. See Footnote III.F for further details.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District has adopted a 2018 fiscal year budget for the general fund in the amount of \$26,475,979 which is slightly higher than the current budget. Tax rates for maintenance and operations were approved at \$1.04 and the interest and sinking rate set at \$.065.

NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED AUGUST 31, 2017

I. Summary of Significant Accounting Policies

Glasscock County Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America applicable to state and local governments. Additionally, the District complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

A. Reporting Entity

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators, and managers, and significantly influence operations. The Board also has the primary accountability for fiscal matters. There are no component units included within the reporting entity.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, state foundation funds, grants and other intergovernmental revenues.

The statement of activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column include payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If revenue is not program revenue, it is general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due from on the Governmental Fund Balance Sheet and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

B. Government-Wide and Fund Financial Statements - Continued

The fund financial statements provide reports on the financial condition and results of operations for two fund categories - governmental and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, (revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows). Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting.

D. Fund Accounting

The District reports the following major governmental funds:

General Fund – The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

Capital Projects Fund – This fund is utilized to accumulate the construction costs related to the new buildings financed by bonds.

Debt Service Funds – The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

Additionally, the District reports the following fund types:

Governmental Funds:

Special Revenue Funds – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a special revenue fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Fiduciary Funds:

Agency Funds – The District accounts for resources held for others in a custodial capacity in agency funds. These funds represent student activity funds and education scholarship funds.

E. Deposits and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed base on the stated maturity date for the portfolio, (8) investment staff qualities and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. Glasscock County Independent School District is in substantial compliance with the requirements of the Act and with local policies.

F. Other Accounting Policies

1. The District records purchases of supplies as expenditures, utilizing the purchase method of accounting for inventory in accordance with the Resource Guide.
2. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. In the fund financial statements, the face amount of debt issued is reported as other financing sources.
3. Land, buildings, and equipment are reported in the applicable governmental activities column in the government-wide financial statements. These capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building Improvements	40
Vehicles	5 – 7
Equipment	5 – 7

4. The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.
5. In the fund financial statements, governmental funds report in classifications based primarily on the extent to which the District is bound to honor constraints on the specific purpose for which amounts in those funds can be spent. The *nonspendable* classification represents assets that will be consumed or must be maintained intact and therefore will never convert to cash, such as inventories of supplies and endowments. Provisions of laws, contracts, and grants specific how fund resources can be used in the *restricted* classification. The nature of these two classifications precludes a need for a policy from the Board of Trustees. However, the Board has adopted fund balance policies for the three unrestricted classifications – *committed, assigned, and unassigned*.

From time to time, the Board of Trustees may commit fund balances by a majority vote in a scheduled meeting. The Board’s commitment may be modified or rescinded by a majority vote in a scheduled meeting. Board commitments cannot exceed the amount of fund balance that is greater than the sum of nonspendable and restricted fund balances since the practice would commit funds that the District does not have. Commitments may be for facility expansion or renovation, program modifications, wage and salary adjustments, financial cushions (rainy day funds), and other purposes determined by the Board.

F. Other Accounting Policies - Continued

The Board of Trustees may delegate authority to specified persons or groups to make assignments of certain fund balances by a majority vote in a scheduled meeting. The Board of Trustees may modify or rescind its delegation of authority by the same action. The authority to make assignments shall be in effect until modified or rescinded by the Board of Trustees by a majority vote in a scheduled meeting.

When the District makes expenditures that can be made from either restricted or unrestricted balances, the expenditures should be charged to restricted balances. When the District incurs expenditures that can be made from either committed, assigned, or unassigned balances, the expenditure should be charged to committed if directly associated with the specific commitment, to assigned if directly associated with the specific assignment, and to unassigned if not directly associated with either the specific commitment or specific assignment.

6. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.
7. In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources until that time. See the pension footnote for a further description of this amount.
8. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources until that time. One type of item which arises only under a modified accrual basis of accounting that qualifies for reporting in this category is uncollected property taxes which are reported on the balance sheet for governmental funds. The other items reported in this category are discussed in the pension footnote.
9. The preparation of financial statements in conformity with GAAP requires the use of management estimates.
10. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide data base for policy development and funding plans.

II. Stewardship, Compliance, and Accountability

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Child Nutrition Program (which is included in the Special Revenue Funds). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit C-5 and the other two reports are presented in Exhibits F-2 and F-3. The remaining Special Revenue Funds adopt a project-length budget which does not correspond to the District's reporting period.

The following procedures are followed in establishing the budgetary data reflected in the fund financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

III. Detailed Notes on all Funds and Account Groups

A. Deposits and Investments

The District had the following investments as of August 31, 2017.

<u>Investment Type</u>	<u>Fair Value</u>
Texas CLASS	\$ 2,875,463
Texstar	<u>733,753</u>
Total Investments	<u>\$ 3,609,216</u>

Interest Rate Risk: The District's investment policy limits its investment portfolio to maturities of one year or less as a means of limiting its exposure to fair value losses arising from fluctuating interest rates.

Credit Risk: The District's investment policy permits only investments specifically allowed by Chapter 2256, "Public Funds Investment," of the Government Code.

A. Deposits and Investments – Continued

Concentration of Credit Risk: The District’s investment policy is to reduce the risk of loss resulting from over concentration of an asset in a specific class of investments; however, the District’s policy places no specific limit on the amount which the District may invest in any one issuer.

Custodial Credit Risk – Deposits: In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The District is not exposed to custodial credit risk for its deposits are all covered by FDIC insurance or by collateral held by the District’s agent bank in the District’s name.

Custodial Credit Risk – Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in external investment pools are considered unclassified as to credit risk because they are not evidenced by securities that exist in physical or book entry form.

Public Funds Investment Pools - Public funds investment pools in Texas (“Pools”) are established under the authority of the Inter-local Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the “Act”), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: (1) have an advisory board composed of participates in the pool and other person who do not have a business relationship with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and (3) maintain the market value of its underlying portfolio within one half of one percent of the value of its shares.

The District’s investments in Pools are reported at an amount determined by the fair value per share of the pool’s underlying portfolio, unless the pool is a 2a7-like, in which case they are reported at share value. A 2a7-pool is one which is not registered with the Securities and Exchange Commission (“SEC”) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940.

B. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

Allowances for uncollectible tax receivables are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

G. Compensated Absences

The Board of Trustees authorized a policy in regards to compensated absences as of the August 12, 2013 meeting. This new policy was in regards to state leave earned. The policy states that an employee who separates from employment with the District shall be eligible for reimbursement for state leave under the following conditions:

1. The employee's separation from employment is voluntary, i.e., the employee is retiring or resigning and is not being discharged or not renewed.
2. The employee provides advance written notice of intent to separate from employment. Contract employees must provide written notice at least 60 days before the last day of employment. Non-contract employees must provide written notice at least two weeks before the last day of employment.
3. The employee has at least five years of service with the District.
4. The employee has at least five days of available state leave.

The employee shall be reimbursed for each day of state leave, to a maximum of 50 days, at a rate of \$100 per day. If the employee is reemployed with the District, days for which the employee received payment shall not be available to that employee.

The rate established by the Board shall be in effect until the Board adopts a new rate. Any changes to the rate shall apply beginning with the school year following the adoption of the rate change.

Following the above eligibility requirements, the District has accrued \$21,600 for the current year.

H. Fund Balances

Fund balances consist of restricted balances which are set aside for retirement of debt of \$996,290 and a balance of \$373,900 for capital projects.

Committed fund balance consists of the following amounts which were approved by the Board of Trustees.

Building Construction	\$ 832,081
Other Amounts	<u>93,126</u>
Total	<u>\$ 925,207</u>

The remaining fund balance of \$6,635,317 is unassigned and available for operations of the next year.

I. Defined Benefit Pension Plan

Plan Description. Glasscock County Independent School District participates in a cost-sharing multiple employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit plan is established and administered in accordance with the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov/about/documents/cafr.pdf#CAFR> ; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

I. Defined Benefit Pension Plan - Continued

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. It also added a 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees effective for fiscal year 2015 as discussed in Note 1 of the TRS 2014 CAFR. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal year 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

	<u>Contribution Rates</u>	
	<u>2016</u>	<u>2017</u>
Member	6.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
Glasscock County ISD 2017 Employer Contributions		\$ 104,339
Glasscock County ISD 2017 Member Contributions		\$ 209,544
Glasscock County ISD 2016 NECE On-Behalf Contributions		\$ 145,135

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during the fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member’s salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member’s first 90 days of employment
- When any part or all of an employee’s salary is paid by federal funding sources or a privately sponsored source.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions. The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2016
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Discount Rate	8.00%
Long-term expected Investment Rate of Return	8.00%
Inflation	2.50%
Salary Increases including inflation	3.50% to 9.50%
Payroll Growth Rate	2.50%
Benefit Changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Discount Rate. The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2016 are summarized below:

I. Defined Benefit Pension Plan – Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2017, the District reported a liability of \$1,172,231 for its proportionate share of the TRS’s net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate of the net liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District’s proportionate share of the collective net pension liability	\$ 1,172,231
State’s proportionate share that is associated with the District	<u>1,722,731</u>
Total	<u>\$ 2,894,962</u>

The net pension liability was measured as of August 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer’s portion of the net pension liability was based on the employer’s contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 through August 31, 2016.

At August 31, 2016 the employer’s proportion of the collective net pension liability was 0.0031021% which was a decrease of 0.0004299% from its proportion measured as of August 31, 2015.

Changes Since the Prior Actuarial Valuation – The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2017, the District recognized pension expense of \$178,778 and revenue of \$178,778 for support provided by the State.

At August 31, 2016 the District reported its proportionate share of the TRS’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Of <u>Resources</u>	Deferred Inflows of <u>Resources</u>
Differences between expected and actual economic experiences	\$ 18,380	\$ 35,002
Changes in actuarial assumptions	35,727	32,493

J. Health Care Coverage

During the period ended August 31, 2017, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$645 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums are paid to a licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement. The contract between the District and the licensed insurer is renewable on September 1, 2017, and terms of coverage and premium costs are included in the contractual provisions. Latest financial statements for the Plan are available from Teacher Retirement System of Texas, 1000 Red River Street, Austin, TX 78701-2698 or by calling (800) 877-0123.

K. Retiree Health Plan

Plan Description – The Glasscock County Independent School District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas (TRS). TRS- Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.02 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. TRS issues a publicly available financial report that includes financial statements and is required supplementary information for TRS-Care. That report may be obtained by downloading the report from the TRS internet website, www.trs.state.tx.us, under the TRS Publications heading, by calling the TRS communications Department at 1-800-223-8778, or by writing to the TRS communications Department, 1000 Red River Street, Austin, Texas 78701.

K. Retiree Health Plan - Continued

Funding Policy – Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 established state, active employee, and public school contributions, respectively. The Contribution Rate for the State was 1.00% for 2015, 2016 and 2017. The contribution rate for the District was 0.55% for each of the three years. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For staff members funded by federal programs, the federal programs are required to contribute 1.00%.

Contributions. Contributions made by the State on behalf of the District are recorded in the governmental funds financial statements as both revenue and expenditures. State, District, Federal and employee contributions for the years ended August 31, 2017, 2016 and 2015 are as follows:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
District Contributions	14,968	14,319	14,206
Federal Contributions	550	583	626
State Contributions	26,664	25,452	25,203
Employee Contributions	17,689	16,922	16,789

Medicare Part D. The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 effective January 1, 2006, established drug coverage for Medicare beneficiaries know as Medicare Part D. One of the provisions of Medicare Part D allows for Texas Public School Retired Employee Group Insurance Program (TRS-Care), administered by TRS, to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal year ended August 31, 2017, 2016 and 2015 the subsidy payments received by TRS-Care on-behalf of the District were \$9,101, \$8,059 and \$11,072, respectively. The information for the year ended August 31, 2017 is an estimate provided by the Teacher Retirement System. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

Active Employee Health Care Coverage

Plan Description. The District participates in TRS Active Care sponsored by the Teacher Retirement System of Texas and administered through Aetna and Caremark (pharmacy). TRS-Active Care provides health care coverage to employees (and their dependents) of participating public education entities. Optional life and long-term care insurance are also provided to active members and retirees. Authority for the plan can be found in the Texas Insurance Code, Title 8, Subtitle H, Chapter 1579 and in the Texas Administrative Code, Title 34, Part 3, chapter 41. The plan began operations on September 1, 2002. This is a premium-based plan. Payments are made on a monthly basis for all covered employees.

N. Workers' Compensation Insurance

The District participates in a risk pool for workers' compensation. The District pays a contribution for the fund year to cover the servicing costs of program administration, claims handling, loss control, and stop loss coverage as well as all claims expenses. In exchange, all claims are paid until closed and there are no additional fees for services provided. The policy is a retrospectively rated policy and premiums are accrued based on the ultimate cost of the experience to date of the member entities. The District is not aware of any material losses from reported or unreported claims. The District's required contribution for the year ended August 31, 2017 was \$7,082.

Changes in the liability during the past year were as follows:

Unpaid claims as of September 1, 2016	\$ 11,139
Incurred claims (Including Prior Year Adjustments)	31,522
Payments	<u>(12,249)</u>
Unpaid claims as of August 31, 2017	<u>\$ 30,412</u>

O. Shared Service Arrangement

The District participates in a shared service arrangement (SSA) for special education with other local schools. The District expended \$49,670 to the SSA in the current year. However, the District does not account for its share of actual expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA.

P. Tax Abatement

The Glasscock County Independent School District board of trustees approved several agreements with various eligible entities listed below for a Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes pursuant to Chapter 313 of the Texas Tax Code, i.e., the Texas Economic Development Act, as set forth in Chapter 313 of the Texas Tax Code, as amended. The entities below qualified for a tax limitation agreement under Texas Tax code section 313.024(b)(5), as a manufacturing project.

Value limitation agreements are a part of a state program, originally created in 2001 which allows school districts to limit the taxable value of an approved project for Maintenance and Operations (M&O) for a period of years specified in statute. The Projects under the Chapter 313 agreements must be consistent with the state's goal to "encourage large scale capital investments in this state." Chapter 313 of the Tax Code grants eligibility to companies engaged in manufacturing, research and development, renewable electric energy production, clean coal projects, nuclear power generation and data centers.

In order to qualify for a value limitation agreement, each applicant has been required to meet a series of capital investment, job creation, and wage requirements specified by state law. At the time of the application's approval, the agreements were found to have done so by both the District's Board of Trustees and the Texas Comptroller's Office, which recommended approval of the project. The applications, the agreements and state reporting requirement documentation can be viewed at the Texas Comptroller's website: <https://www.comptroller.texas.gov/economy/local/ch313/agreement-docs.php>. The agreements and all supporting documentation were assigned Texas Comptroller Application Numbers.

After approval, the applicant companies must maintain a viable presence in the district for the entire period of the value limitation plus a period of years thereafter. In addition, there are specific reporting requirements, which are monitored on an annual and biennial basis in order to ensure relevant job, wage, and operational requirements are being met.

In the event any of the companies listed below terminate their agreements without the consent of the District, or in the event that the companies or its successor-in-interest fails to comply in any material respect with the terms of these agreements or to meet any material obligation under these agreements, then the District shall be entitled to the recapture of all ad valorem tax revenue lost as a result of these agreements together with the payment of penalty and interest, on the recaptured ad valorem tax revenue. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code section 33.01(a), or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax code section 33.01(c), or its successor statute. These agreements provide an administrative procedure to determine any company liability. Ultimately, enforcement of any payment obligation is through the local state district court.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENTAL AUDITING STANDARDS*

Independent Auditor's Report

Board of Trustees
Glasscock County Independent School District
P.O. Box 9
Garden City, Texas 79739

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Glasscock County Independent School District as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise the Glasscock County Independent School District's basic financial statements, and have issued our report thereon dated October 31, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Glasscock County Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Glasscock County Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Glasscock County Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the district's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Glasscock County Independent School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Glasscock County Independent School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Glasscock County Independent School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
