

## Columbia School District Network and Internet Acceptable Use Policy

Columbia School District's network access will allow a student to have access to the internet and a logon name and password on the school's fileserver. This access will allow a student to access, save and delete their own files from any student computer in the school.

- I understand that computer access at school is a privilege.
- I understand that I must adhere to a strict ethical standard.
- I understand that any violation of these rules could result in a loss of network/computer privileges and/or other disciplinary action, depending on the severity of the violation.

*I agree to the following conditions:*

1. I will keep my password secure.
2. I will not allow another student to use my account.
3. I will follow all copyright laws.
4. I will not install any programs on computers.
5. I will not attempt to "hack", bypass district security measures or alter/modify the computer hardware or software.
6. I will not engage in games or any other activity that is not school-related or teacher directed.
7. I will not use Columbia School District technology to harass others or to send, create, duplicate or in any way convey profanity, abusive language, or inappropriate images.
8. I realize that I can be held responsible for any misuse of my account. I will immediately report to a teacher or administrator if I think someone knows my password. Upon such notification the student's password will be changed.
