Student Transportation Parent Release Form

As feasible, Judge Memorial Catholic High School provides official transportation to and/or from practices, competitions, activities, etc. If official transportation is provided, students involved/participating are required to travel in this method.

In the instances where official transportation is not provided, students and their families must arrange for transportation on their own. The school, its administrators, coaches and/or moderators cannot coordinate, consult nor provide any input on personal transportation arrangements.

With the coach's/moderator's approval, a student may travel with his/her parents if there is advance consent provided, in writing, prior to the trip. In the event a parent wishes to transport his/her student, arrangements in advance must be made with the Judge Memorial Main Office which will in turn notify the coach or moderator. No student is ever to be released to anyone other than the parent of record, and only then after that parent has made the request through the Main Office and verification is made by the Main Office. Coaches or moderators cannot release a student through phone contact with the parent from an event nor release a student to another student for transportation.
