Silvio Trifiletti is the epitome of the American Dream. He came to this country as a very young boy and through hard work and sacrifice has become a most successful businessman. He is quiet and without fanfare, and does whatever is asked of him to promote Harvey High School and our community. He has silently sponsored many Harvey athletes by sending them to camps to help them develop their abilities. Silvio quietly gives back to his community and to his school, never forgetting they are the backdrop of his American Dream. His proud, unassuming nature manifests itself in the countless acts of love and generosity that typify the selfless sharing of his success as a businessman and as a person.

**Inducted:  
Member of The Harvey Alumni Association  
Distinguished Graduates  
June 3, 2003**
