

# MATHEMATICS & STATISTICS FAIR 2018

## SATURDAY, FEBRUARY 24. BLOCKER BLDG.

### TEXAS A&M UNIVERSITY

#### SCHEDULE

9—9:30AM

9AM-NOON

11AM—NOON

#### REGISTRATION

**JULIA ROBINSON MATH FESTIVAL,  
PUZZLES, PROBLEMS, ARTS,  
CRAFTS, AND MORE**

**PARADOXES IN PROBABILITY &  
STATISTICS, LECTURE BY BORIS  
HANIN**

*Abstract: Probability and statistics are among the most important and exciting areas in pure and applied math. They are also notorious for intuition-bending problems. I will give some examples of such questions, especially ones that are historically important in the development of these fields.*

NOON

**CLOSING REMARKS AND PRIZE  
RAFFLE** (limit of one raffle prize per  
person—must be present to win)

2PM
