Has your school implemented the following components of the district's local wellness policy?

* Nutrition education and promotion activities
* Physical activity opportunities
* Nutrition standards for all foods and beverages available on each school campus during the school day that meet or exceed the USDA's requirements for school meals and competitive foods and beverages
* Marketing and advertising of only those foods and beverages that meet the USDA Smart Snacks in School nutrition standards on school campus.

* Other school-based activities that promote student wellness
* Permit parents, students, representatives of the school

Yes, our school has implemented all of these components.
<p>| School | 103 Recess | Are students provided at least 20 minutes of recess during each school day, and do teachers or recess monitors encourage students to be active? | 3 Yes. |</p>

Are indoor and outdoor physical activity facilities open to students, their families, and the community outside school hours?

Making facilities open and available to students, their families, and the community outside of school hours can be conducted as a regular practice or through a formal, written joint or shared use agreement. A joint use or shared use agreement is a formal agreement between a school or school district and another public or private entity to jointly use either school facilities or community facilities to share costs and responsibilities. Indoor or outdoor facilities, but not both, 2 are available.

positive psychosocial school climate using all of the following practices?

* Communicate clear expectations for learning and behavior to students, and share those expectations with families to encourage them to reinforce them at home
* Foster pro-social behavior by engaging students in activities such as peer tutoring, classroom chores, service learning, and teacher assistance
* Foster an appreciation of student and family diversity and respect
* Hold school-wide activities that give students opportunities to learn about diverse cultures and experiences
Does your school offer, to all students who need them, a variety of services designed to help students overcome barriers to learning?
| School Health and Safety Policies and Environment | Does your school provide a broad variety of student enrichment experiences that are accessible to all students? | 119 |
Does your school implement a standard precautions policy that includes all of the following components?

* Providing and requiring the use of latex or poly gloves and eye wear when exposed to blood and body fluids
* Providing a hard-sided container for contaminated needles/sharps in offices where syringes may be used
* Appropriate disinfecting of surface areas and clean-up materials after exposure to blood and body fluid
* Instructions for appropriate disposal of contaminated materials (e.g., dressings, clothing, tissue/towels)
* Procedures and follow-up for staff members who are exposed to blood
Have all teachers received professional development on meeting the diverse cognitive, emotional, and social needs of children and adolescents in the past two years?
Has the school established a climate, in each of the following ways, that prevents harassment and bullying?

* Staff members, students and parents are informed through a variety of mechanisms of policies defining harassment and bullying and explaining the consequences of such behaviors
* Disciplinary policies are fairly and consistently implemented among all student groups
* Staff members and students treat each other with respect and courtesy
* Fair play and nonviolence is emphasized on the playground, on the school bus, and at school events
* Students are encouraged to report harassment or bullying,
Do staff members actively supervise students, in each of the following ways, everywhere on campus (e.g., classroom, lunchroom, playground, locker room, hallways, bathroom, and school bus)?

* Observing students and being available to talk to students before, during, and after school
* Anticipating and effectively responding to unsafe situations
* Discouraging pushing and bullying
* Promoting prosocial behaviors, such as cooperation, conflict resolution, and helping others
| School Health and Safety Policies | Written crisis response plan that includes preparedness, response, and recovery elements? Is the plan practiced regularly and updated as necessary? |
School Health and Safety Policies

Are your physical activity facilities adequate in all of the following ways?

* Both indoor and outdoor spaces can be used by physical education classes, intramural programs or physical activity clubs, and interscholastic sports programs
* Indoor facilities exist so that physical education classes do not have to be canceled due to weather extremes (e.g., rain or temperatures extremes)
* In physical education classes, all students can be physically active without overcrowding or safety risks
* Facilities are accessible for persons with disabilities
* For physical activity clubs and interscholastic sports, all interested students can sign up and participate without overcrowding

2 In most grades.
Does your health education curriculum address all of these topics on physical activity?

* The physical, psychological, or social benefits of physical activity
* How physical activity can contribute to a healthy weight
* How physical activity can contribute to the academic learning process
* How an inactive lifestyle contributes to chronic disease
* Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
* Differences between physical activity, exercise, and fitness
* Phases of an exercise session, that is, warm up, workout, and cool down

Yes, addresses all of these topics.
curriculum address all of these essential topics on healthy eating?

* The relationship between healthy eating and personal health and disease prevention
* Food guidance from MyPlate http://www.choosemyplate.gov/

* Reading and using food labels
* Eating a variety of foods every day
* Balancing food intake and physical activity
* Eating more fruits, vegetables and whole grain products
* Choosing foods that are low in fat, saturated fat, and cholesterol and do not contain transfat
* Choosing foods and beverages with little added sugars
* Eating more calcium-rich foods
* Preparing healthy meals and snacks

Addresses most of these 2 topics.
Do all teachers of health education use an age-appropriate sequential health education curriculum that is consistent with state or national standards for health education?

Consider using CDC’s Health Education Curriculum Analysis Tool (HECAT), http://www.cdc.gov/healthyyouth/HECAT/, which is designed to help school districts and schools conduct a clear, complete, and consistent analysis of written health education curriculum. HECAT results can help districts and schools enhance, develop, or select appropriate and effective health education curricula. The HECAT assesses how consistent curricula are with national standards and can assist users in determining if the

Do all students in each grade receive physical education for at least 150 minutes per week throughout the school year?

Physical education classes should be spread over at least three days per week, with daily physical education preferable.

3 Yes.
Do all teachers of physical education use an age-appropriate, sequential physical education curriculum that is consistent with national or state standards for physical education (see national standards below)?

Consider using CDC's Physical Education Curriculum Analysis Tool (PECAT), http://www.cdc.gov/healthyyouth/PECAT/, which is designed to help school districts and schools conduct a clear, complete, and consistent analysis of written physical education curriculum. PECAT results can help districts and schools enhance, develop, or select appropriate and effective physical education curricula for delivering high-quality physical education in

Physical Education curricula
Physical Activity
Programs

303 standards

3 Yes.
Does the physical education program integrate the components of the Presidential Youth Fitness Program?

- Fitness assessment using Fitnessgram
- Professional development for physical education teachers on proper use and integration of fitness education, fitness assessment, and recognition.
- Recognition of students meeting Healthy Fitness Zones or their physical activity goals.

Yes, all 3 components of the PYFP are integrated.
Does the physical education program use three or more methods to promote student participation in a variety of community physical activity options?

* Class discussions
* Bulletin boards
* Public address announcements
* Guest speakers who promote community programs
* Take-home flyers
* Homework assignments
* Newsletter articles

Yes, through three or more methods.
Does the physical education program consistently use all or most of the following practices as appropriate to include students with special health care needs?

* Encouraging active participation; modifying type, intensity, and length of activity if indicated in Individualized Education Plans, asthma action plans, or 504 plans
* Offering adapted physical education classes
* Using modified equipment and facilities
* Ensuring that students with chronic health conditions are fully participating in physical activity as appropriate and when able
* Monitoring signs and symptoms of chronic health conditions
* Encouraging students to carry

Yes, the physical education program uses all or most of these instructional practices consistently.
promote or support walking and bicycling to school in the following ways?

* Designation of safe or preferred routes to school
* Promotional activities such as participation in International Walk to School Week, National Walk and Bike to School Week
* Secure storage facilities for bicycles and helmets (e.g., shed, cage, fenced area)
* Instruction on walking/bicycling safety provided to students
* Promotion of safe routes program to students, staff and parents via newsletters, websites, local newspaper
* Crossing guards are used
* Crosswalks exist on streets leading to schools
* Walking school buses are used
* Bicycle parking is provided (1 way).

Our school promotes or supports walking and bicycling to school in one to two of these ways.
Does your school offer opportunities for students to participate in physical activity before and after the school day for example, through organized physical activities or access to facilities or equipment?

Yes. We offer before school or after school, but not both.
Are all students provided opportunities to participate in physical activity breaks in classrooms, outside of physical education, recess, and class transition periods?

Physical activity breaks are actual breaks that occur in the academic classroom, allowing students to take a mental and physical break from current academic tasks. These breaks can occur at any time during the school day, last from 5–30 minutes, and occur all at one time or several times during the school day.

Yes, on all days during a typical school week.
<p>| Physical Education and Other Physical Activity Programs | Students active at least 50% of class time for at least 50% of the time during most or all physical education class sessions? | During about half the 2 classes. |</p>

Does the physical education program implement and enforce all of the following safety practices?

* Practice active supervision
* Encourage pro-social behaviors
* Use protective clothing and safety gear that is appropriate to child's size and in good shape
* Use safe, age-appropriate equipment
* Minimize exposure to sun (including through use of sunscreen), smog, and extreme temperatures
* Use infection control practices for handling blood and other body fluids
* Monitor the environment to reduce exposure to potential allergens or irritants (e.g., pollen, bees, strong odors)
Physical Education and Other Physical Activity Programs

Does your school or district ensure that playgrounds meet or exceed recommended safety standards for design, installation, and maintenance, in all of the following ways?

* Using recommended safety surfaces under playground equipment
* Using developmentally-appropriate equipment designed with spaces and angles that preclude entrapment
* Designating boundaries around equipment (e.g., swings) so that students on foot are unlikely to be struck
* Separating playgrounds from motor vehicle and bicycle traffic
* Maintaining equipment for safe use and removing unsafe equipment
* Ensuring that staff members are trained in developmental appropriateness of different types of playground equipment

Physical activity facilities meet safety standards for design, installation, and maintenance, in the following ways:

- Regular inspection and repair of indoor and outdoor playing surfaces, including those on playgrounds and sports fields
- Regular inspection and repair of physical activity equipment such as balls, jump ropes, nets, cardiovascular machines, weights, and weight lifting machines
- Padded goal posts and gym walls
- Breakaway bases for baseball
- Securely anchored portable soccer goals that are stored in a locked facility when not in use
- Bleachers that minimize the
Does your school offer school meals (breakfast and lunch) programs that are fully accessible to all students?

3 Yes.
Do school meals include a variety of foods that meet the following criteria?

**LUNCH**

* Go beyond the National School Lunch Program requirements to offer one additional serving per week from any of the 3 vegetable subgroups (dark green, red and orange, dry beans and peas)
* Offer a different fruit every day of the week during lunch (100% fruit juice can be counted as a fruit only once per week)
* Offer fresh fruit at least 1 day per week
* Offer foods that address the cultural practices of the student population
* Offer an alternative entrée option at least one time per week that is legume based, reduced fat

| Nutrition Services | Variety of foods in school meals | Yes, meets six to eight of these criteria for variety. |
Promote healthy food and beverage choices using Smarter Lunchroom technique.

Are healthy food and beverage choices promoted through the following techniques?

* Whole fruit options are displayed in attractive bowls or baskets (instead of chaffing dishes or hotel pans)
* Sliced or cut fruit is available daily
* Daily fruit options are displayed in a location in the line of sight and reach of students
* All available vegetable options have been given creative or descriptive names
* Daily vegetable options are bundled into all grab and go meals available to students
* All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily 2

Healthy food and beverage choices are promoted through five to nine of these techniques.
Do all school nutrition program managers and staff meet or exceed the annual continuing education/training hours required by the USDA's Professional Standards requirements? Topics covered and may include, but are not limited to, food safety and HACCP, nutrition standards updates, school in school meals, food nutrition sensitivities and allergies, customer service or annual continuing education/training hours required by the USDA's Professional Standards requirements.

Nutrition Services 404 staff food production techniques. Yes, all food and nutrition services staff meet or exceed the annual continuing education/training hours required by the USDA's Professional Standards requirements.
| Nutrition Services | 405 | Do most venues outside the cafeteria (e.g., vending machines, school stores, canteens, snack bars, or snack or food carts) where food is available offer fruits and non-fried vegetables? | Yes, most or all venues outside the cafeteria do. |
Do nutrition services staff members use three or more of the following methods to collaborate with teachers to reinforce nutrition education lessons taught in the classroom?

* Participate in design and implementation of nutrition education programs
* Display educational and informational materials that reinforce classroom lessons
* Provide food for use in classroom nutrition education lessons
* Provide ideas for classroom nutrition education lessons
* Teach lessons or give presentations to students
* Provide cafeteria tours for classes

Nutrition Services and Teachers

Collaboration between nutrition services staff members and 406 teachers

Yes, use three or more 3 methods.
| Nutrition Services | 407 meals | Do students have at least 10 minutes to eat breakfast and at least 20 minutes to eat lunch, counting from the time they are seated? | Yes. (Note: If the school does not have a breakfast program, but does provide at least 20 minutes for lunch, you can select this answer.) |
Is your school implementing any Farm to School activities?

* Local and/or regional products are incorporated into the school meal program
* Messages about agriculture and nutrition are reinforced throughout the learning environment
* School hosts a school garden
* School hosts field trips to local farms
* School utilizes promotions or special events, such as tastings, that highlight the local/regional products

| Nutrition Services | Farm to School 408 activities | Yes, our school is implementing four to five of these activities. |
Does the school food service consistently follow practices that ensure healthier foods are purchased and prepared for service?

* Spoon solid fat from chilled meat and poultry broth before use
* Use specifications requiring lower sodium content in prepared foods such as hamburgers, pizza, chicken nuggets, etc.; and canned products such as vegetables, sauces, etc.
* Use specifications requiring lower added sugar content in prepared foods such as whole grain cold cereals or cereal bars (e.g., candy or yogurt coated); breakfast items such as pancakes or waffles (e.g., infused with syrup); and canned products such as fruit (e.g., packed heavy syrup).
students with a clean, safe, and pleasant cafeteria, according to the following criteria?

* Physical structure (e.g., walls, floor covering) does not need repairs
* Tables and chairs are not damaged and are of appropriate size for all students
* Seating is not overcrowded (i.e., never more than 100% of capacity)
* Rules for safe behavior (e.g., no running, no throwing food or utensils) are enforced
* Tables and floors are cleaned between lunch periods or shifts
* Age-appropriate decorations are used
* Appropriate practices are used to prevent excessive noise levels (e.g., no whistles)
* Smells are pleasant and not offensive
Are school nutrition service staff members and cafeteria monitors (e.g., teachers, aides) trained to respond quickly and effectively to the following types of food emergencies?

* Choking
* Natural disasters (e.g., electrical outages affecting refrigeration)
* Medical emergencies (e.g., severe food allergy reactions, diabetic reactions)
* Attempts to introduce biological or other hazards into the food supply
* Situations that require students or others to shelter in the school

Preparedness for food emergencies
Does your school have a full-time, registered school nurse responsible for health services all day, every day? Are an adequate number of full-time school nurses provided, based on the recommended ratio of at least one nurse for every 750 students?

Health services provided by a full-time school nurse are recommended if students have extensive nursing needs. More nurses are recommended if students have extensive nursing needs.

We have a school nurse present all day every day, but fewer than one nurse for every 750 students.
Does the school nurse or other health services provider promote the health and safety of students and their families, through classroom activities and otherwise, on each of these topics?

* Promoting physical activity
* Promoting healthy eating
* Preventing tobacco use
* Quitting tobacco use
* Preventing unintentional injuries
* Preventing violence and suicide
* Managing asthma
* Preventing HIV, other STD, and unintended pregnancy

Yes, addresses all eight of these topics.
Does the school nurse or other health services provider collaborate with other school staff members to promote student health and safety in at least six of the following ways?

* Developing plans to address student health problems (e.g., individual health care plans, individual education plans, 504 plans, school team plans)
* Providing professional development
* Developing policy
* Identifying, revising or developing curricula or units/lessons
* Developing and implementing school-wide and classroom activities
* Developing School Improvement Plans
* Establishing communication systems with other school staff

There is collaboration in three to five of these ways.
<table>
