

March 2018

MEASURE SP CONSTRUCTION UPDATE South Pasadena Unified School District

Balfour Beatty

SPHS STEM Building

The concrete foundation has been completed for the north portion of the building. At this time, the crews are diligently working to achieve the next several concrete pour dates for the month of April in order to maintain the schedule.

SPHS Physical Education and Athletic Facility

The plans continue to be developed with more depth and specificity in order to submit to the Department of State Architects this summer.

SPMS Hard Court & Field Project

Progress has continued despite the recent rain events. A majority of the perimeter fencing has been replaced and final grading will soon be completed. Within the next month, base for the new field should be in place and site hardscape will be well underway.

SPMS Old Gymnasium Repurposing

The team is working to re-evaluate the structural and seismic requirements for the old gymnasium in order to review potential costs savings with the design. As such, the team anticipates submittal to the Division of State Architects by June 2018.
